Subject: Fwd: Regarding 'show platform hardware capacity'

Do you have anybody working on this? This was on both msft and facebook's wishlist, iirc.

Subject: Regarding 'show platform hardware capacity'
To: Hugh Holbrook <holbrook@aristanetworks.com>

Hi Hugh,

We discussed about this briefly when I was in US office. It looks like we have one intern who is available for 4 more months and Amod and I think that she can take this up. She has completed two small ment projects in last two months.

The below link gives information about corresponding Cisco CLI

http://www.cisco.com/en/US/docs/ios/interface/command/reference/ir_s5.html#wp1064681

Let me know if you are expecting something on these lines..

If yes, probably we can start with 'show platform hardware capacity forwarding' and then extend to other options.

Thanks,
Ravundra
